## PRACTICE NEWS OCTOBER 2017

### FLU VACCINATIONS

This year the practice is offering the new quad vaccine that protects against 4 flu virus strains compared to just 3 strains in previous years.

Flu vaccinations are available for all patients over 65, patients with chronic diseases such as Asthma/COPD, Diabetes, Heart Disease, Renal Disease, Stroke, Chronic Liver Disease, Multiple Sclerosis, pregnant women and patients with low immunity e.g. no spleen, receiving cancer treatment and carers.

### PLEASE BOOK YOUR APPOINTMENT AT RECEPTION

**DO NOT BOOK** a separate appointment for your flu vaccination if you are seeing the GP or Nurse anytime throughout the flu season, you can be vaccinated in the one appointment.

**Are you looking after someone? Do you care for a family member who is elderly, ill or who has a disability? Who looks after you?**

Dr Lyon & Partners is asking all carers registered at the practice to let the practice know if they are a carer - just let **our receptionists know or ask for Natasha our carers lead** that you are a carer and you will receive information on the free support and advice available to you in Bolton.

Caring for a family member can be very rewarding and satisfying. At times though, it can be exhausting and stressful. Many carers have little time to themselves. Carers are therefore prone to poor health, which can become worse due to lack of time available to see a doctor or pharmacist.

**Our practice offers carers an Annual Health & Wellbeing check, please book an appointment at reception.**
