

Non-NHS services which can only be provided by the patient's own GP or attending doctor.

The **British Medical Association (BMA)** advises that fees for private medical work should reflect the doctor's time spent (including preparation, review of records, writing, or examination); The level of professional skill and responsibility required and Administrative and practice costs.

Charges are therefore based on the complexity of the request and the time taken to complete it.

Category	Examples / Description	Fee
